CONTROL & AUTOMATION PRODUCTS NEWSLETTER

Volume 2008 -03

Marsh Control & Automation Products Division is pleased to provide our Customers and prospects with information we hope you will find of interest and help you in your daily operations and duties.

Featured Product Line: TEGAM Inc. – Test, Measurement & Calibration Instruments

From its headquarters located in Ohio, **TEGAM** continues to expand as an internationally recognized manufacturer of RF power sensor calibration systems, RF attenuation measurement systems, resistance standards, ratio standards, ohm meters, LCR meters/impedance bridges, arbitrary waveform generators, high-voltage amplifiers, MEMS engine driver systems, handheld thermometers, humidity meters, and other test & measurement solutions. Over the past 26 years, TEGAM has maintained steady growth by the strategic acquisition of product lines from a number of well-known companies such as Keithley Instruments, Eaton, Electro Scientific Industries (ESI), Tektronix, Gertsch, Weinschel, Analite, and Pragmatic Instruments. In addition, TEGAM has developed several new products that have provided their customers with total solutions for their test, measurement, and calibration needs.

TEGAM Inc. recently appointed the Marsh Group as their Canadian representative and distributor for their complete line of Test & Measurement Solutions, providing their Canadian customers with local technical sales and service support. Marsh's strong commitment to Customer Service and ISO/CSA Quality Assurance Programs as well as ISO 17025:2005 Accreditation, compliments the TEGAM philosophy of exceptional products, solutions, and support that made our company and our customers successful.

For more TEGAM product and service information please link to our Marsh Instrumentation website www.marshinst.com/control_automation_products-10.html to view/download the New TEGAM Catalog and to access the TEGAM website, or contact us at products@marshinst.com to discuss your particular application needs.

New & Expanded Website
